

葵涌蘇浙公學

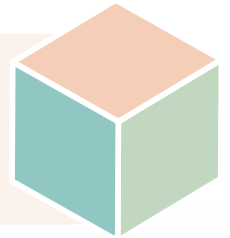

Kiangsu-Chekiang College (Kwai Chung)

English Musical MineFriend*, YourFriend

*This is a story on friendship based in the game Minecraft.

 **Date:** Nov 8, 2019 (FRI)

 **Venue:** School Hall, 16 Wing Fong Road, Kwai Chung

Song 1 <Create the World>

I am the one who build up this world.
I am the lord who own this dreamworld.
I am the king who rule these creatures.
I create and grant all these wonderful precious.

Changing from empty to completed.
Look at the greens and varies of lives.
All of these wonderful creations
light up my world and have chased the dark away.

I have the lives controlled in my hands.
Like magic and miracles around all of us.
Spending my time filling all the colours.
How beautiful!

How excited I've never tried to be God
There are the trees I created
And all the land I expanded
How wonderful I've never been creator
There is panda and my sheep
I won't be lonely again

This is a virtual world that's not real.
Now I have to return as no one.
Following what they tell me to do.
This is my life and this is my destiny

Song 2 <Slave Chris>

***Classmates:**
Hey Chris! Hey Chris!
Oh this is our friend given to play to slave
He serve us and will do the things we say.

Chris:
Let's think about how can be saved.
But I wanted to be their mates.

Classmates:
No worries you are already our mates.*

Classmate 1:
My homework cannot wait to be completed, hey Chris!

Classmate 2:
My stomach is yelling don't you get it, I want cheese cake
with earl grey tea.

Classmates:
Be fast! Be quick! Hurry! Just rush! No matter what you have
to do.

Chris:
I really want to stay just tell me how much to pay. Please
don't go, please don't leave, I'm afraid.

Classmates:
We will become good friends all you need is to obey.
If you give what we need we won't betray.

Classmates:
We need you right now!

Chris:
I should find it proud.

Classmates:
If you help, we'll be friends. Do not doubt!

Chris:
I will move all around, fill my back with sweat.

Classmates:
Try your best there'll be friends. You will get!
Repeat*

Song 4 <Courage of my Life>

I believe in my life
No need to hide behind dark side
I should try to be wise
I will always stand by your side
You created all of us and world
You should be proud of all your works
Don't be shame
Don't question what you've done
We always support you
No matter what you try to do
There's no where to doubt you
No matter what we're facing to
Please remember we're companion
Together we'll work as a group
Being strong
You'll never be alone
Don't feel upset
You have to be brave
Don't think you're weak we're staying tough
Let's run Let's go adventure
Break through those difficulties and walls
I believe in my life
No need to hide behind dark side
I should try to be wise
I will always stand by your side
You created all of us and world
You should be proud of all your works
Don't be shame
Don't question what you've done
You won't be alone

Song 3 <Companion>

I was afraid when facing challenge
I was so scared when I'm alone
I cannot run when I was broken
There's no way to run away

It is lucky that I have minecraft
It lets me know that I'm not burst.
To be thankful for what I have got
No need to live under shadow

When I want to give up
They always stand by me
When I feel frustrated
I know I'm not alone

When I'm facing challenge
They always give me courage
All the difficulties
I can count on my companion

It is lucky that I have minecraft
It lets me know that I'm not burst.
To be thankful for what I have got
I won't be the old me again

Synopsis

When gaming gets such a bad rep in our society, Chris searches for true friendship in a world where there are no rules. As the overlord of his world, how will he handle inter-personal relationships with people he has never met? This is a tale of a schoolboy who lives with two clashing identities in two contrasting worlds. Will he be able to guide his friends from impending doom and carry what he has learnt to the world that truly matters?

在現實社會中人們覺得打機是一件不正經的事，男主角想在一個沒有規則的虛擬世界裡尋求真正的友誼。他將如何與從未親身接觸過的人建立人際關係？他在兩個截然不同的世界中擁有着兩個不同的身份，他是否能夠引導他的朋友走出困局，並將他所學到的東西帶到另一個世界呢？
